

Step 1: Go to <https://colab.research.google.com/> in your web browser. If you aren't already signed in to your Google account, click the blue sign in button in the top right corner.

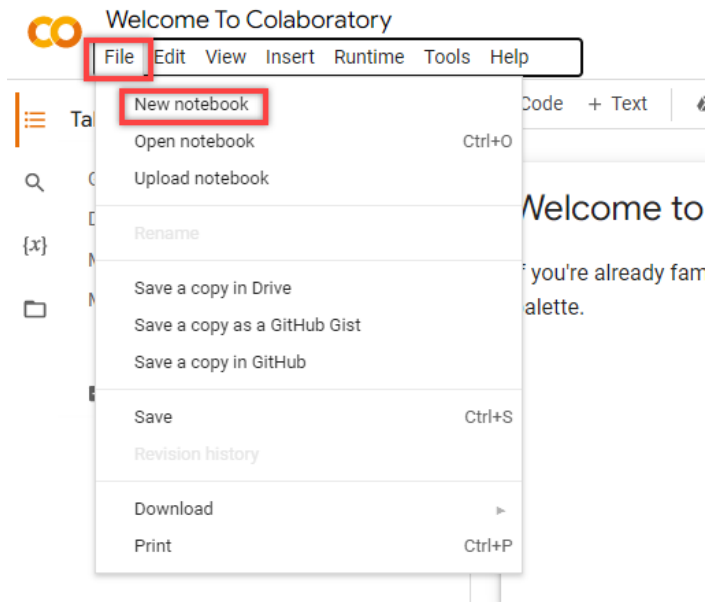

Note: If you do not have a Google/gmail account, click on "create account" and follow the instructions.

Step 2: After signing in, to create a new notebook, click on **New notebook** in the pop-up.

If you do not see this screen, in the top left corner of your screen, click on **FILE**, then **NEW NOTEBOOK**.

Step 4: After making a new notebook, if you see a screen like this, you have successfully set up your Google Colab Python!
